"Route your outbound calls with us and save money"

Low Cost Calling Service

If you have a traditional office PBX (Private Branch Exchange) and are looking to benefit from better line and call costs, take a look at our Low Cost Calling service.

Quick Overview

✓ Better calling rates.

✓ Simplified billing.

✓ Integrates with DR services.

What is it and how does it work?

With Low Cost Calling (LCC), also known as Least Cost Routing (LCR) or Carrier Pre-Select (CPS), we route your outbound calls via our carrier, saving you money on your calls. We can also manage your BT lines and features to ensure you are benefiting from additional savings.

Once applied to your lines, the LCC service sends your outbound calls over our carrier's network and we bill you for those calls at the end of each month.

We only use Tier 1 carriers for all our outbound routes, whether national or international. We do not use IP routing or carriers with low bandwidth to ensure your call never fails or breaks up due to a poor quality connection.

With the LCC service there is no interruption to your service, call quality is not affected and no change of number is required. The only changes are your bill will come from us and it will cost you less!

Emergency and disaster recovery

As we are managing your lines and calls with this service, we can easily combine it with a Callagenix Disaster Recovery service to ensure you have maximum uptime without loss of service in the event of an emergency.

How much does can I save?

Savings are dependent upon volume and the mix of calls. To get a quote please email us a copy of your last bill to see how much you could save.

Try it out for free

We understand this can all be a little daunting at first, which is why we let you set everything up and test it out for free before you go live. Once you have registered and logged in, you can create and test as many services as you, like free of charge. We even give you a small opening balance to prove it all works before you spend any money. After that, it's just a case of choosing your number(s) and setting your service live.

We're a friendly bunch and are always happy to help. We can even set everything up for you if prefer. If there's anything you're not sure about, please call us on +44 (0) 333 2470000 for a chat and we'll talk you through it.

Call Conference can be used with:
Virtual Switchboard Service
Message Archive and Retrieval
PIN Entry
Caller Select (CLI Recognition)
Time of Day (7 Day 24 Hour Timer)
